1 Getting Started

Hello there! You have been tasked with taking care of my kulturBOT! Welcome to the team! We are glad to have you with us. Here are some things to get you started working with kulturBOT.

1.1 Quick Facts

Twitter Profile: @kulturBOT

Facebook Profile: <https://www.facebook.com/thekulturbot>

2 Normal Operation

The following outlines how to get my kulturBOT operating normally.

1. With the Laptop logged in, open up Visual Studio from the desktop shortcut and hit F5. A black Console window will open up. Refer to Figure 1 for an example.

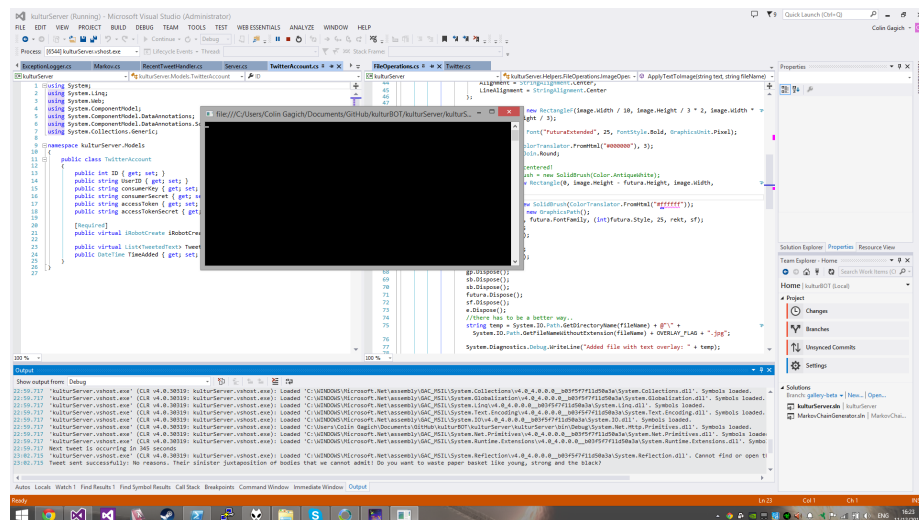

Figure 1: Normal Operation of the Laptop

2. After you have done this, check the kulturBOT twitter feed and ensure a tweet has been sent in the last 60 seconds.

THIS IS CODES

3 Troubleshooting

- 3.1 kulturBOT is taking pictures but not moving.
- 3.2 kulturBOT won't turn on.
